

### Planar Helium Series Multi-Touch Monitors

The Planar® Helium™ Series are 24-inch (PCT2485) and 27-inch (PCT2785) multi-touch monitors with a slim profile, glass front surface, wide viewing angles and a built-in HD webcam. With very light pressure from the user the unique, easy-to-use Helium Stand is easily adjustable from 15° to 70° or flat, creating the ultimate touch experience on the desktop. Planar Helium Series monitors are ideal for use by software developers and designers, corporate power-users, enthusiasts and retailers.

FLAT ORIENTATION

ADJUSTABLE FROM 15° TO 70°

EASY TO USE HELIUM STAND

Planar Helium Series monitors are easily paired with a non-touch monitor to provide the ultimate in office productivity. A wide range of video inputs - Analog, HDMI, DisplayPort - allow for easy plug-and-play into practically any existing work environment including workstations, ultrabooks and tablets to light up the benefits of the touch-friendly Windows® 8 operating system. The monitors are compatible with other mounting options using the VESA standard hole pattern on the back of the monitor. Built-in HD web-cam and microphone connects users through the internet to share information and the built-in USB hub allows users to connect other peripherals directly to the monitor.

## KEY FEATURES

24" and 27" widescreen interactive displays with a 16:9 aspect ratio
